

ECONOMICS

Keppo et al. (2026)

Heterogeneous AI agents
Repeated-price competition
Fragility of collusion

Extend to ticket scarcity

COMPUTER SCIENCE

Huynh et al. (2006)

Trust from interaction history
Reputation-based evaluation
Partner evaluation

Extend to AI-advice reliability

BEHAVIORAL SCIENCE

Arthur (1994)

Bounded rationality
Inductive reasoning
Learning from past outcomes

Test trust vs. sell-out beliefs

SHARED QUESTION

When is following AI advice economically justified?
